

I am an 'V'owel

You will be given a lower-case single character. If the character is 'a','e','i','o','u','v' then you have to print **Vowel** otherwise **Consonant**.

Input Format

A single character, C.

Constraints

'a' <= C <= 'z'

Output Format

Print a single word 'Vowel' or 'Consonant' (without qoutes) .

Sample Input 0

e

Sample Output 0

Vowel

Sample Input 1

k

Sample Output 1

Consonant
