

# A Draw Match

You will be given 4 integers (a , b, c ,d ). You have to calculate whether  $a/b == c/d$ .

## Input Format

A single line contains 4 integers, separated by white space.

## Constraints

$1 \leq a,b,c,d \leq 100$

## Output Format

print "**Yes**" if a/b equals to c/d, otherwise print "**No**".

## Sample Input 0

```
30 6 15 3
```

## Sample Output 0

```
Yes
```

## Sample Input 1

```
1 1 1 1
```

## Sample Output 1

```
Yes
```

## Sample Input 2

```
21 3 50 10
```

## Sample Output 2

```
No
```
