Getting Started 1

Welcome everyone. Today we are going to start learning C++. We all know due to COVID-19 we are doing this workshop from home. However, there are still so many people who are not obeying the lockdown. You have to write a code to create awareness among those people.

```cpp
#include <bits/stdc++.h>
using namespace std;

int main(){

    cout<<"Hello World."<<endl;
    return 0;
}
```

Input Format

No input for this problem.

Constraints

No constraint for this problem.

Output Format

Output a single line.

Sample Output 0

```
Stay home. Stay SaFe.
```
